DESIGN SPOTLIGHT: NEW YEAR, NEW TRENDS

Over the past year, we've seen a major shift toward richer, earth-inspired tones, moving away from the neutrals that have defined home design for several years. Our design team predicts this trend will continue, with more homeowners gravitating toward warmer, more expressive spaces in 2026.

Here are four elements we expect to define design in the year ahead:

1. WARM TONED WOOD

WARM WOOD TONES ARE BACK IN THE SPOTLIGHT

WARM WOOD
PANELING

COLOR
MAXXING

2. AGED METALS

THINK BRASS AND ANTIQUE TREATMENTS

3. THE FIFTH WALL

WERE NOT FORGETTING ABOUT THE CEILING

THE "FIFTH
WALL"

AGED METALS

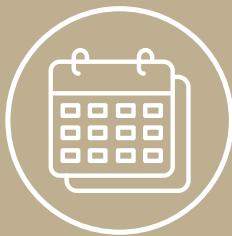

4. COLOR MAXXING

TASTEFULLY, OF COURSE

FROM THE JOBSITE: ON TIME THROUGH THE ELEMENTS

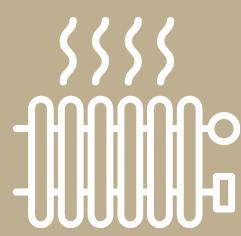

We sat down with our project management team this month to discuss how they planned to tackle snow, ice and freezing temperatures on the jobsites. The gameplan they stick to is quite simple, check out the three rules they follow to keep your project on track.

Adjusting timelines and sequencing work to stay efficient and minimize weather-related delays.

Using temporary enclosures, heaters, and weatherproof coverings to keep the site safe and comfortable.

Properly storing temperature-sensitive materials and scheduling deliveries strategically to prevent freeze damage.

BEHIND THE SCENES

This past month we began demo and framing on our new Westport remodel and addition. Pictured to the left is a photo of the jobsite post-snow storm. We are excited to continue to share the progress of this exciting project.

LOCAL LOVE

This month we want to give a shoutout to our favorite place to grab soup- Chef's Table in Fairfield!
